Janitorial & Maintenance Supplies

CHICOPEE®

Hanset Brothers, Inc.
MASTER DISTRIBUTOR

For over 99 years (1919-2018) Hanset Brothers, Inc. has worked with honesty and integrity. Founded by brothers Leon, Joe and Homer, with help from their father Emil, Hanset Bros. Mfrs. mission was to make high-quality corn brooms. Additional items that were made included whisk brooms, mop buckets and mop handles. Using a specially developed broom corn dying process and a distinctive yellow striped handle, the Brown Beauty broom became their signature product and is still available today.

Leon's son David joined the business in 1953 following his service as a supply sergeant during the Korean war. Due to changes in market conditions, Hanset Brothers, Inc. began selling other vendors products. Adding Zimmerman Brush (now part of Carlisle), Haviland Squeegee, Golden Star, Rubbermaid Commercial products (in 1977) and other lines, the resale business eventually outgrew the manufacturing side.

Now almost 100 years later, Hanset Brothers, Inc. is a redistributor of over 50 lines of Janitorial & Maintenance supply products. We sell products throughout Oregon, Washington, Idaho, Alaska, Montana and Northern California to our distributor partners. Our goal is the same as it has been for almost 100 years; quality products, sold with honesty and integrity. We look forward to serving you.

We are pleased to offer the latest edition of our Janitorial & Maintenance Supplies catalog. This catalog contains a full spectrum of Janitorial, Industrial and Maintenance products from many of the top vendors in the market. *If you can't find what you are looking for, please ask. New items are regularly added to our inventory and non-stock items can be special ordered.* Additional product information and Safety Data Sheets are available upon request or at the vendor web site addresses listed at the top of each page.

How To Measure A Container For Correct Bag Size

Bag Width: Use one-half of the outer circumference of the container.

Bag Length: Use the height of the container, plus one-half of the diameter of the container bottom plus three inches (for over-hang). For square or rectangular containers use the diagonal of the container bottom, not the diameter.

How To Measure A Container For Correct Bag Size

Bag Width: Use one-half of the outer circumference of the container.

Bag Length: Use the height of the container, plus one-half of the diameter of the container bottom plus three inches (for over-hang). For square or rectangular containers use the diagonal of the container bottom, not the diameter.

Corn Broom Terminology

- Broom Corn** A fiber grown specifically for making brooms. It is durable, long-lasting and sweeps medium to fine debris.
- Yucca** A filler fiber that is sometimes called "grass". It is cheaper than Broom Corn but not as flexible nor does it sweep as fine of debris. Adds stiffness.
- Rattan** A coarse natural fiber used in industrial upright brooms to stiffen it for heavy use.
- Pounds/Dozen** Brooms are classed by the per dozen weight. Use for size comparisons.
